

Annex: List of honours and prizes awarded by ETH

The following list is based on the information present on the page "Honours and Prizes" of the ETH Zürich website: <https://www.ethz.ch/en/the-eth-zurich/portrait/awards.html>

Award name	Linked personality	Awarded for	Female awardees*
Crédit Suisse Award for Best Teaching		best teaching	0 % since 2006
Golden Owl		best teaching (awarded by VSETH)	9.6 % since 2005 11 % since 2008
KITE Award		Key Innovation in Teaching at ETH	
ABB Research Award		students	
ETH Gold Medal		students	
Hilti Prize for Innovative Research	Martin and Eugen Hilti founders of the firm Hilti	students	
Willi Studer Prize	Willi Studer founder of the firm Studer	students	
Lopez-Loreta	Jean-Jacques and Felicia Lopez-Loreta	outstanding graduates	
Latsis Prize	Spiros Latsis greek billionaire	young researcher	17 % since 1985 55 % since 2008
Ruzicka Prize	former ETH professor Nobel Prize for chemistry	Chemistry	9.7 % since 1957 18 % since 2008
Rössler Prize	Swiss investor former ETH student	young scientist	22.2 % since 2009
Aurel Stodola Prize Aurel Stodola Lecture	former ETH professor	Mechanical Engineering	0 % since 2004
ETH Zürich Chemical Engineering Medal		Chemical Engineering	17 % since 2013
Heinz Hopf Prize	former ETH professor	Mathematics	
Richard R. Ernst Medal Richard Ernst Lecture	Nobel prize former ETH professor	Biology	22.2 % since 2009
Spark Award		patented innovation	17.6 % since 2012
venture		startup competition	
ALEA Award		exemplary leadership	
Paul Bernays Lecture	former ETH professor	Philosophy of exact science	0 % since 2012
Wolfgang Pauli Lecture	Nobel prize for physics former ETH professor	Mathematics, Biology and Physics	5.9 % since 2003
Honorary Doctorates			1.7 % since 1909 20 % since 2008

Honorary Councillors			9 % since 2008
----------------------	--	--	----------------

*I recorded the percentage of female awardees when there was available data on the ETH website. It was possible only for prizes awarded to researchers because I could check their gender on their professional web page (as opposed to students). These figures are to be compared with the percentage of female professors at ETH, which was 6% in 2008 and 13.9% in 2017. When I could do it I also compared the percentage since the beginning of the prize and the percentage since 2008, because as there are more female scientists today, old prizes have a very low percentage as compared to recent ones. 2008 was chosen because there was a great increase in the percentage of female professors at ETH between 2007 and 2008 (we can see it on the Figure 1, which was taken from the 2017/2018 gender monitoring report of Equal!).
